MORE MONEY FOR MEXICO

IF the United States government is to lend a hundred million dollars to Mexico, or to guarantee the loan if made by private bankers, some oversight of the spending of the money should go with it. Mexico would be no better off if the money were spent to equip an army. If we are to help Mexico financially we must wait until Carranza sets up a constitutional government and a president and legislators are chosen at a general election. Money lent to Carranza might be so wasted that the people of Mexico should not be burdened with its repayment. We must not lose sight of the fact that Carranza has no legal status other than possessing a title won by force of arms and that he has pledged himself to hold a general election. This leaves Mexico in the position which Cuba occupied when we assisted in pacifying the island and holding a fair election. Mexicans, like Cubans, must learn to play the game of politics according to real democratic rules.

In the midst of the love feast that promised to send our troubles, Villa steps once more upon the stage with a conquering army of two or three thousand men. Carranza must fight Villa to a finish now and if he were wise he would let American troops co-operate in the roundup. It would be a farce to hold an election while half the country is in rebellion against Carranza, and he knows it. If Villa comes north and attacks American soldiers or crosses our frontier the Federal government will be able to recognize him as an enemy ruler in possession of certain territory and then our troops would have a plain duty to perform in accordance with the rules of international law which the United States upholds.

If Villa sets himself up as ruler over territory contiguous to the United States and Carranza is not able to occupy that territory and keep the Villistas from raiding American territory we shall be forced to recognize Villa's actual possession of such territory and we shall then be in a position to make war upon him without violating the sovereign rights of the Mexican government.

It would be unwise to finance Mexico until we know who is to rule that country. Villa may win if Carranza refuses to accept our help and cannot crush him now. Everything is so uncertain that we cannot even be sure that Villa is alive, but somebody is in the saddle down in Chihuahua. We cannot sink money in Mexico until the Mexicans show that they can help themselves or are willing to accept guidance. It is exasperating to find a revolution in territory which Carranza claims to control and from which he has asked us to withdraw troops sent to catch Villa. More will be known in a few days. It is not what Carranza promises but what he can do that counts. Anybody would promise almost anything for a hundred million dollars in real American money.

FREE ADVERTISING

THE government has set such a rapid pace in the matter of publicity that every institution from the Steel Trust down to the smallest retail store is ready to patronize the printer, providing he offers his space free of charge. The Louisville Courier Journal, one of the wealthiest and most influential daily newspapers in the United States, has begun a crusade against the imposition which, until recently, was restricted to the small and mostly impecunious dailies. The Courier Journal suggests that every well regulated newspaper provide itself with a staff devoted exclusively to weeding out various forms of deadhead advertising and grafts having the printer for its sole victim. The printer has nothing but space to sell and when you ask for this space without offering remuneration you descend to the level of the beggar who goes to the butcher and begs for a bone or to the grocer to ask for a loaf of bread. It never occurs to a man or a woman to solicit the donation of any necessary of life, but at the same time these people do not hesitate to "pan-handle" the editor without thought of humiliation.

Humboldt county, which is commonly believed to be the worst infested rabies district, is agitating the question of removing muzzles from dogs. What's the matter with Nye county, where there has not been a solitary case of the disease?

There is plenty of cold storage in sight around Winnemucca, which reports forty feet of snow in the canyons of the South Fork of the Humboldt on the first of July. Nevada better advertise her native glaciers.

Isn't it a crushing comment on Nevada schools that an "expert educator" should have to be employed to discover what is the matter with the State University?

When you roll up in your blanket these happy nights and doze off into the land of blissful forgetfulness, don't forget the fly is still on the job. Swat him at the first opportunity.

ENJOYS BIRTHDAY PARTY

Little Marvin Taseen was two years old yesterday and in honor of the occasion celebrated it by inviting his little friends. THOUSANDS DYING UNSANITARY ASIA

TURK GOVERNMENT NEGLECTS HEALTH MEASURES IN BOTH THE ARMY AND CITIES

(By Associated Press.)

ZURICH, Switzerland, July 15.—Private letters received here from Jerusalem state that the number of Lebanese and Syrians sentenced to death by the Turkish authorities is constantly increasing.

In consequence of the rapid spread of spotted typhus, whooping cough and smallpox, the Turkish government has closed all the schools in Jerusalem. Newspapers are appearing with black bordered sheets and are filled with death notices.

Despite the censorship the journals publish long articles sharply criticizing the Turkish government for its neglect to enforce the most elementary sanitary measures. Wounded and plague stricken soldiers are being brought from the battlefields on the canal and transported in the most primitive manner through inhabited districts.

CONCERT PAR EXCELLENCE

The power went off last evening just as the main picture was about to be shown in the Butler theater, but that was really a fortuitous circumstance, for the entertainment provided during the succeeding hour was more than on a parity with that which would have been given if the drama had been screened. Fred Thomas and Hosmer, the musicians, "pulled new stuff" with a vengeance, the xylophone and piano duets being really works of art, while "Tipperary" Brissell and Miss Roberts, entertainer at the Right cabaret, rendered pleasing solos. It was almost a disappointment when the lights came on.

You can enjoy this weather with a General Electric or Emerson fan. Lundee Bros.

POLISH LANGUAGE IS RESTORED IN SCHOOL

NATIVE TONGUE RESTORATION AFTER PROHIBITION OF FIFTY YEARS

(By Associated Press.)

PULVAY, Russian Poland, July 15. October is to see the reopening, with the Polish language in vogue, of the Agricultural High school, which, so far as Polish is concerned, has been closed since 1863. The Austro-Hungarian occupation authorities in Russian Poland have decided to revive the institution and have entrusted the reorganization and conduct of the school to Professor Dr. Stefan Surzycki of the University of Krakau.

The Pulvay High school, one of the biggest educational institutions in Russian Poland, was closed in 1863 by the Russian authorities because its pupils had taken part in the revolution. It remained closed until the year 1869, when it was reopened as a purely Russian school. It was closed again at the outbreak of the war.

WEDDING RINGS ARE NOT ALWAYS OF GOLD

EXIGENCIES OF HOUR PRECLUDE USE OF VALUABLE METAL FOR MARRIAGE

(By Associated Press.)

LONDON, July 15.—The war has altered the etiquette of weddings in England. The war wedding ring is not now always made of gold. A bride may be married with a lead ring made of the piece of shrapnel that injured her bridegroom.

The invitation list is, if not entirely suspended, much restricted. As a rule only near relatives receive cards bidding them to the wedding. The war bride has revised the wedding present list also in a most salutary manner. It is understood to be unpatriotic to give presents made of gold; silver is welcomed instead.
